### Examiner's Statement of Reasons for Allowance

Claims 1-3 are allowed because the prior art of record does not disclose a circuit with a master delay line coupled to a first clock, a slave delay line having a second clock frequency, wherein the first clock frequency is faster than the second clock frequency and wherein the slave delay line is calibrated to the master delay line.

Claims 4-7 are allowed in view of the recitation of the second clock frequency being less than the first clock frequency, and slave gear logic coupled to the master calibration logic and to the slave delay line for determining a number of delay elements to be selected to provide the predetermined slave delay amount.

Claims 8-10 are allowed in view of the recitation of the second clock frequency being lower than the first clock frequency, and the steps of determining from the calibration value a corresponding number of delay elements within the slave delay line required to generate a predetermined slave delay amount and selecting the delay elements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
